

VILA / magnet

Product description

VILA is 3D printed magnet in the form of a dragonfly. The 3D printing technology is pushed to its limits in order to make an object that is extremely light, thin and elegant, while still remaining durable and functional. The magnet can be used on any metal steel surface to hold notes, photos, cards or even a piece of light jewelry like a necklace. In combination with BUBA it creates an elegant home magnet board/organizer.

Year of design

2015

Environment

Indoor

Care

This product is not suitable to be used as a toy or be given to under-age children. It should not come in contact with direct sunlight, electricity and heat. WARNING: This product contains a small magnet.
